

# MUSLIM "REFUGEES" BRING PREGNANT LITTLE GIRLS AS "CHILD BRIDES" TO EUROPE

This is what "European values" now look like

October 23, 2015 Daniel Greenfield

This is what "European values" now look like. The millions of Muslim migrants invading Europe under the guise of refugees are making the abuse of children into the new normal. If you want to know where the Muslim sex grooming scandals of the UK in which thousands of young girls were raped come from, it's down to religion and culture.

And this is what Europe is importing (<http://www.express.co.uk/news/world/614083/Fatema-Alkasem-Child-Refugee-Brides-Netherlands-Paedophilia-EU-European-Union>). via Religion of Peace (<http://thereligionofpeace.com/>).

**Dutch asylum centres are reportedly housing 20 child brides aged between 13 and 15, while three a week on average are arriving to the country.**

**The brides were granted legal permission to join their older partners after the country recognised marriages involving young teenagers if they are officially registered in their home country.**

Yes, you read that correctly. If this is true, then the Netherlands have apparently recognized child rape as a legal marriage if it's legal under Muslim law.

**Outraged Dutch Labour MP Attje Kuiken said: "A 12-year-old girl with a 40-year-old man - that is not a marriage, that is abuse. "We're talking about really young children, girls 12, 13 years old. I want to protect these children."**

**CHILD brides as young as 12 have been ordered to stay with the men they were forced to marry after European officials agreed to recognise the partnerships.**

**It comes amid fears of a paedophilia epidemic inside European refugee camps after a pregnant 14-year-old girl went missing from a Dutch centre.**

**Fatema Alkasem disappeared along with her 24-year-old husband in August and police are concerned the Syrian girl needs medical care.**

This is not going over well (<http://www.pri.org/stories/2015-10-20/saved-or-exploited-dutch-alarm-rises-over-child-brides-syria>) among the native population.

**More than 36,000 people entered the Netherlands this year. Former prisons, empty government offices and sports halls are being hastily modified to accommodate the surge in numbers. Earlier this month, Finance Minister Jeroen Dijsselbloem announced that the treasury's original projection of \$340 million to cover the cost of the new arrivals in 2015 was wildly understated.**

**They are now looking at a bill of approximately \$1.13 billion.**

**The anti-immigration Freedom Party is enjoying its highest ever poll rating. The Freedom Party's popularity is being partly attributed to Dutch concern about the continent's inability to manage the flow of new arrivals.**

I wonder why.
